IBM – CLOUD APPLICATION DEVELOPMENT

CHATBOT USING IBM WATSON ASSISTANT

PHASE-4: DEVELOPMENT PART -2

INTRODUCTION:

In Phase 4 of my IBM Watson Assistant chatbot development, I'm implementing intelligent learning and refining responses for personalized interactions. I integrated this assistant to Facebook Messenger using IBM integrations.
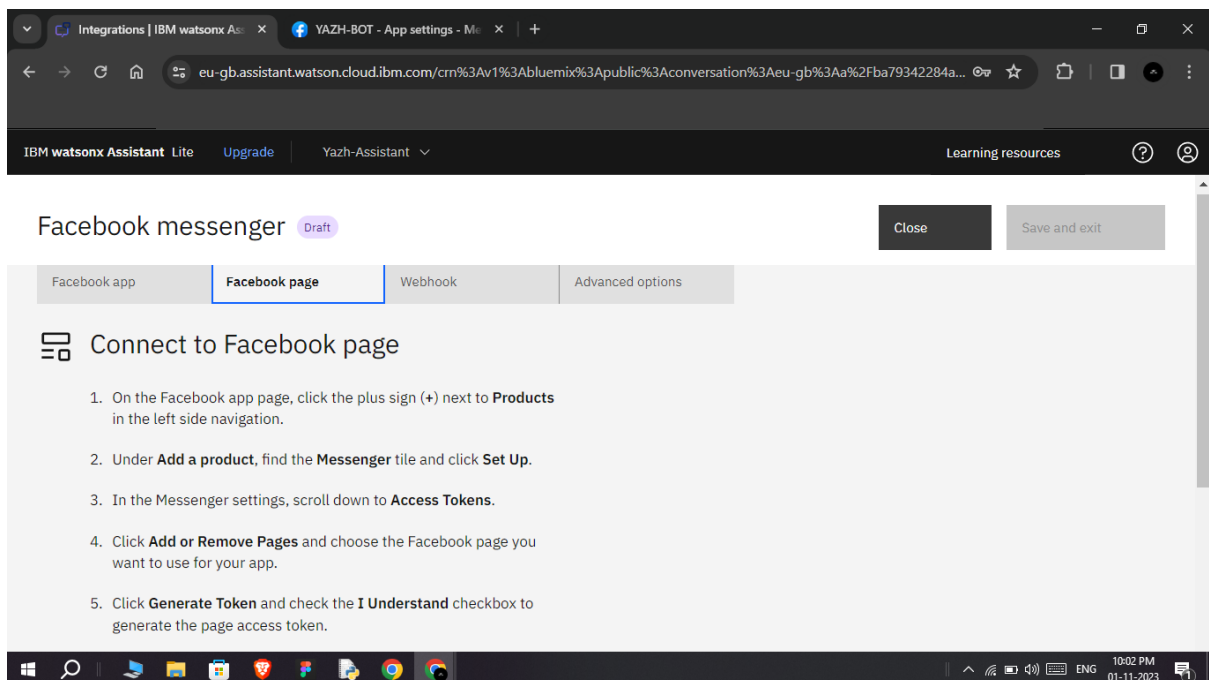

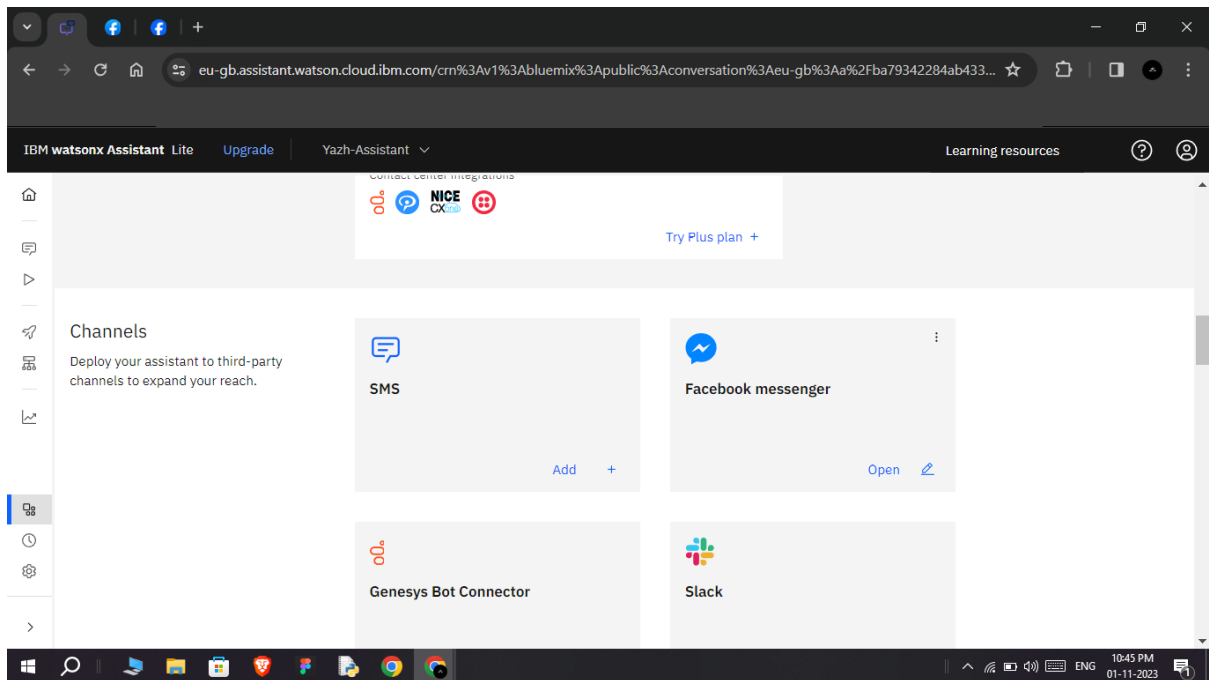

REQUIREMENTS:
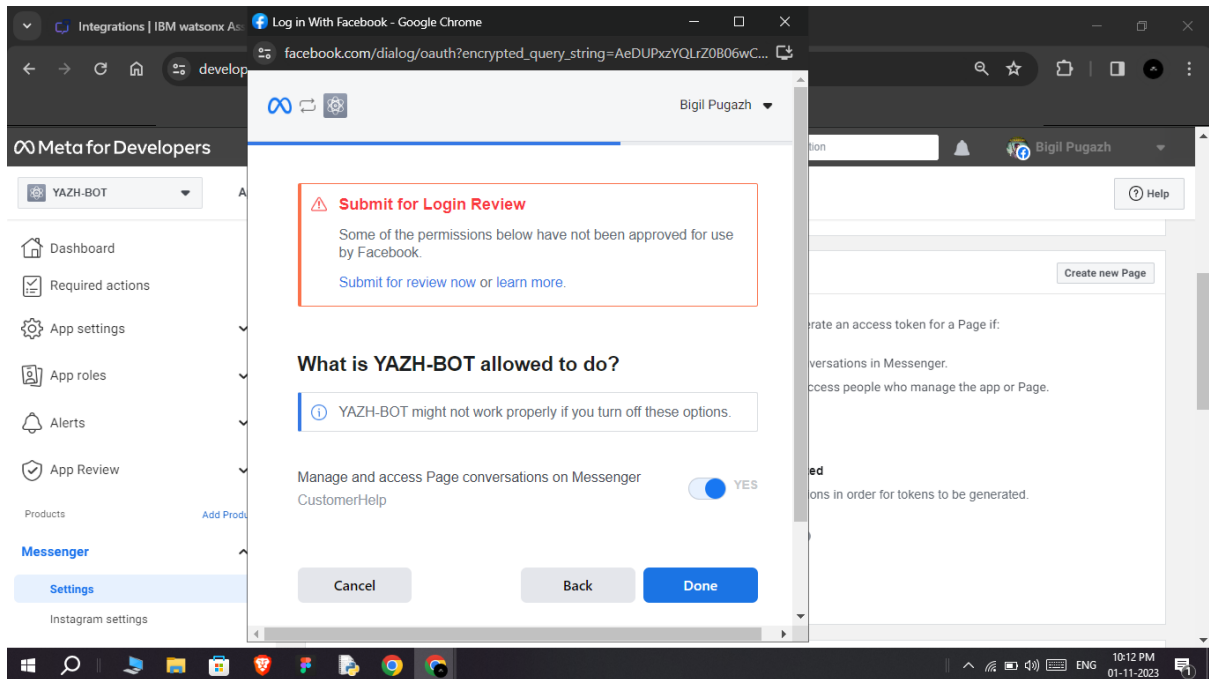

IBM CLOUD, WATSON ASSISTANT, WATSOM ASSISTANT INTEGRATIONS
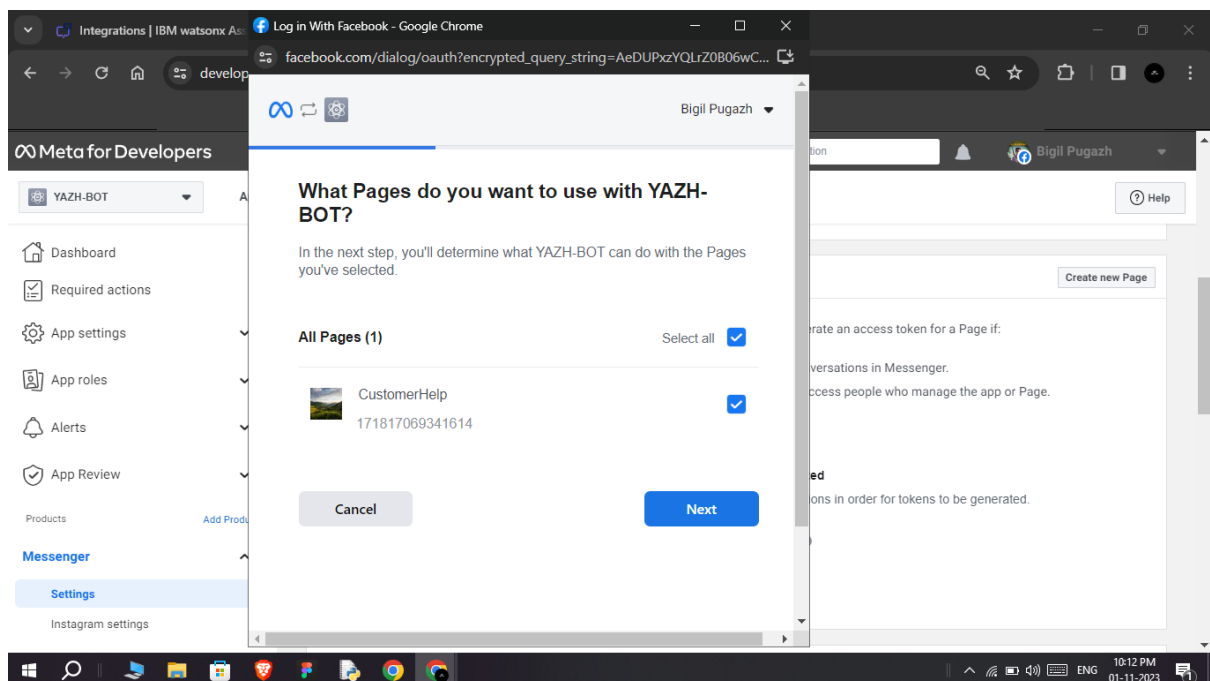

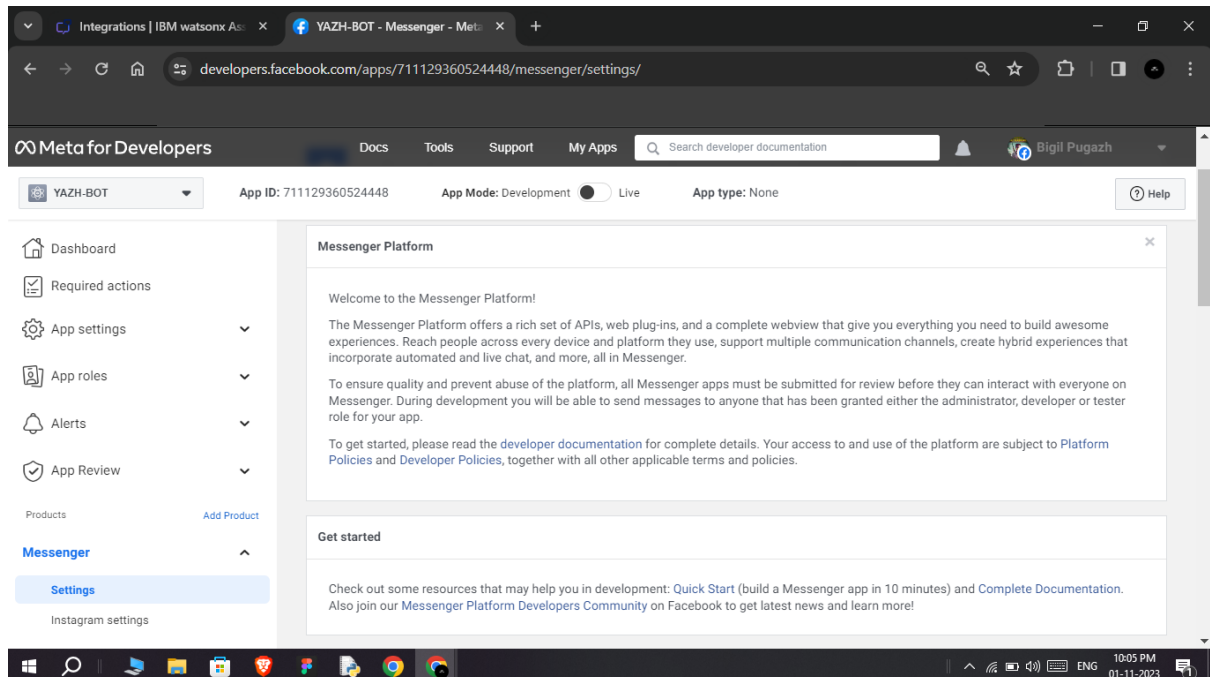

STEP 1: GO TO INTERACTIONS
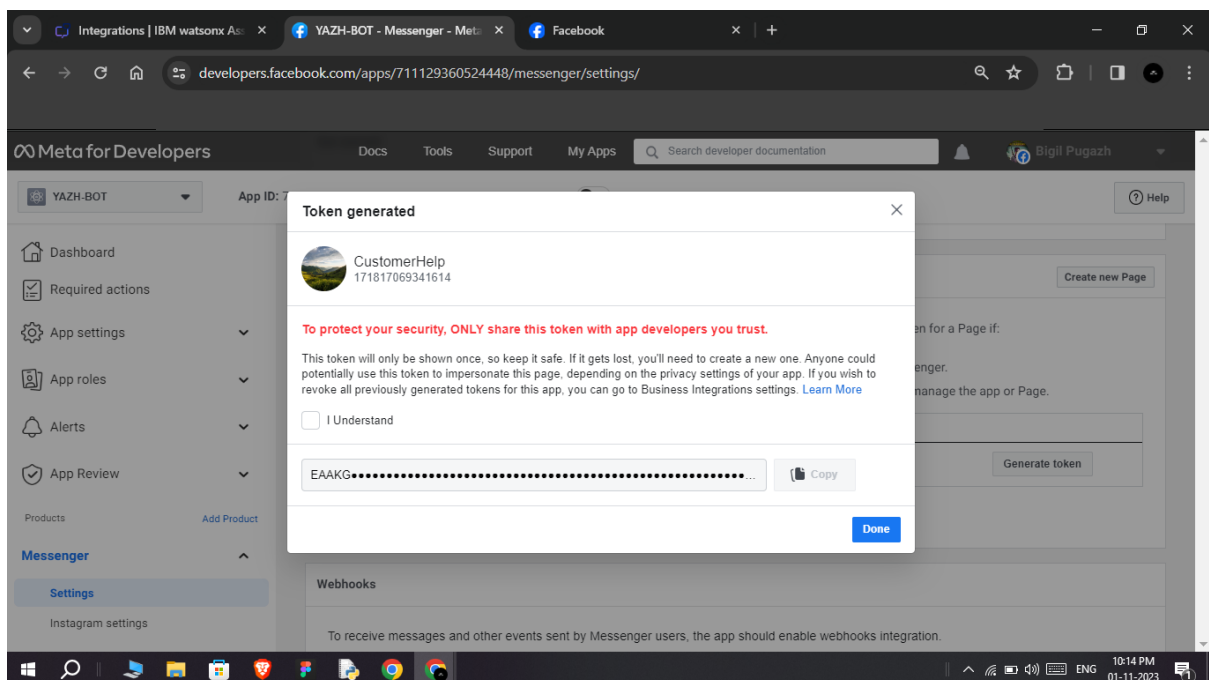

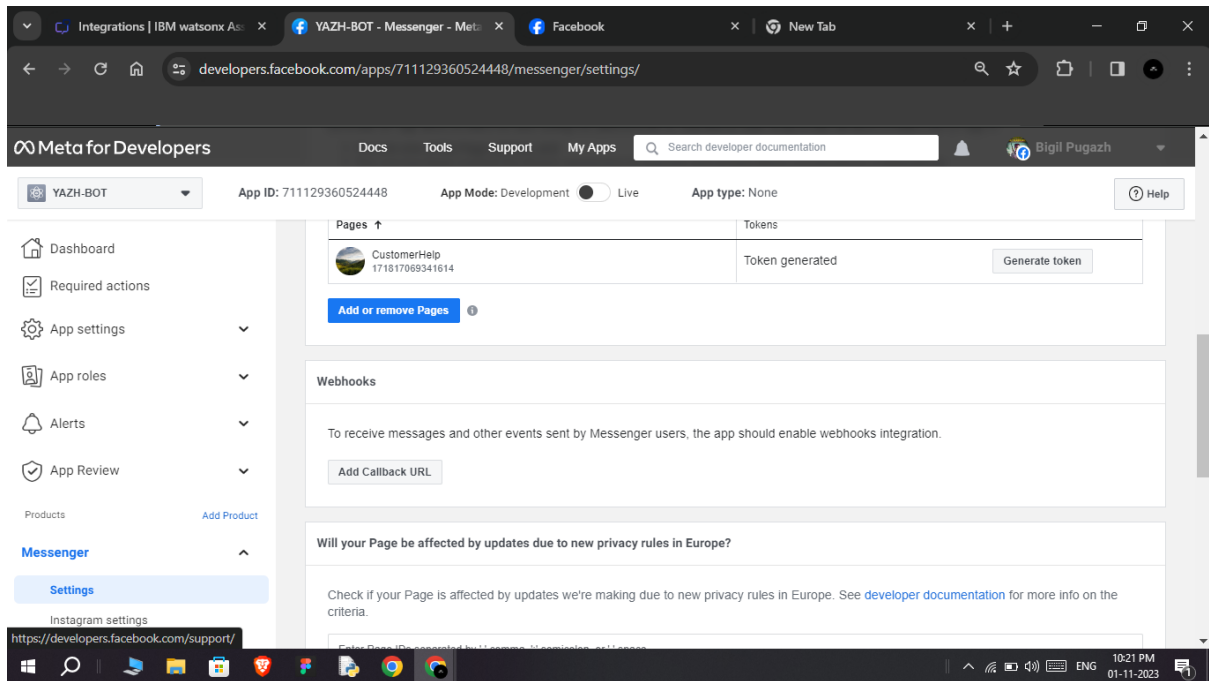

STEP 2: FROM INTERACTIONS CHOOSE FACEBOOK

STEP 3: GIVE THE NAME TO AND ALLOW ACCESS
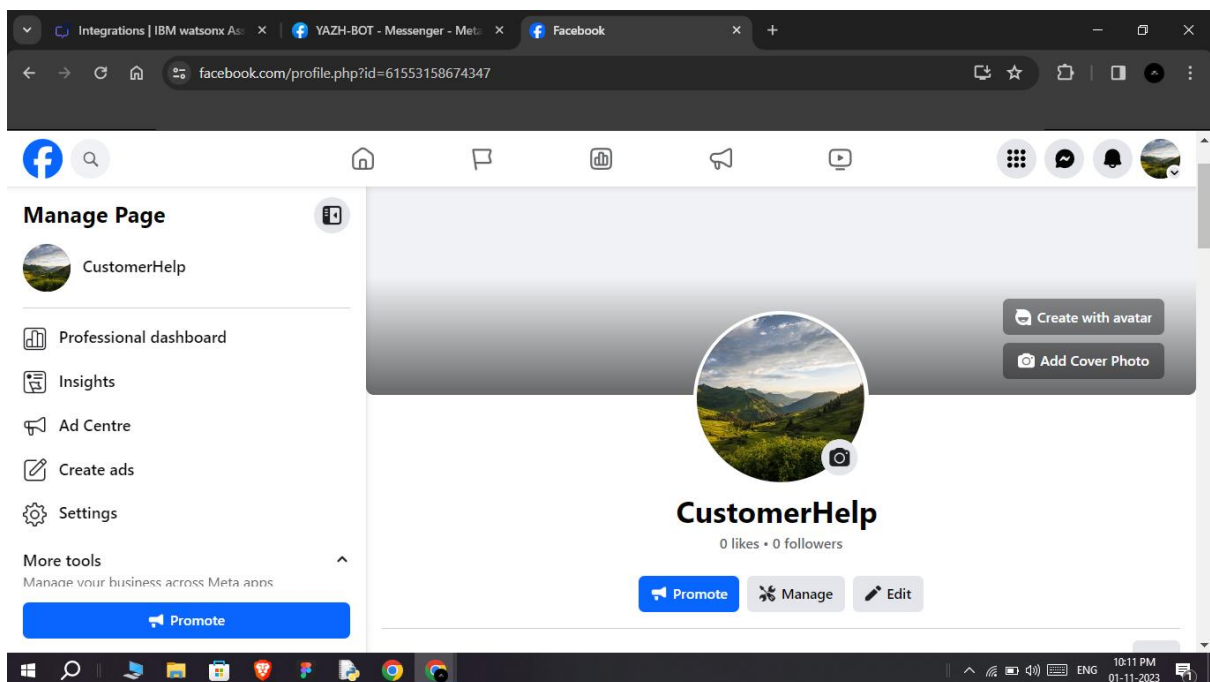

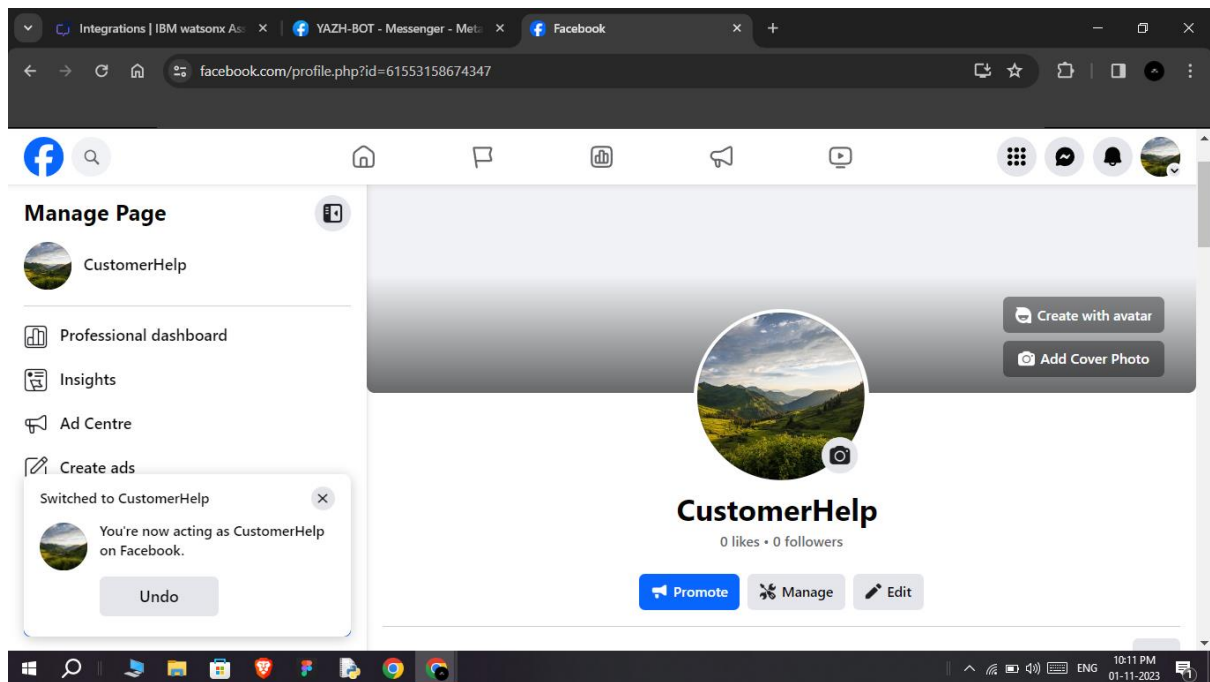

# STEP 4: USING THE MESSAGE PLATFORM TO CONNECT WITH FACEBOOK CHAT

# STEP 5: ADD THE FACEBOOK PAGE INTO THE MESSAGE PLATFORM AND GENERATE TOKEN

STEP 6: CREATE A PAGE WITH META DEVELOPERS BY GIVING BASIC CREDENTIALS
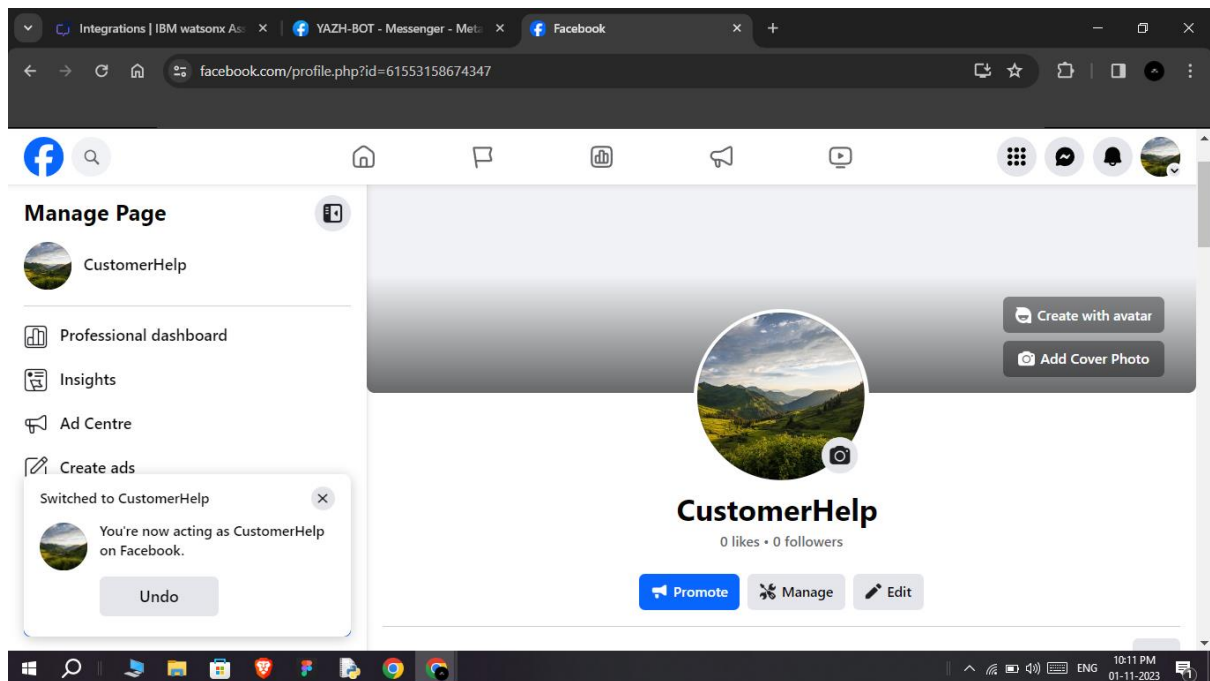

STEP 7: BY USING CALLBACK AND VERIFY TOKEN TO SAVE THE CHANGES

STEP 8: SEARCH THE BOT TO SEEMLESS CHAT

CONCLUSION:

Thus we have explored the create the above assistant and integrated within the messenger app Facebook and some more by using of IBM Watson assistant and their integrations.
